Deputy,

Looks like the “Victory Lap” convoy is off for today. We will have resources ready to stand up and deal with any convoy issues if they arise today.

Tks,

Craig

Mat,

Our members at the Splendron site (Vankleek Hill) are at the entrance and have had discussion with the group this AM who advise that they will not be doing a slow roll convoy today. PLT are engaged and delivering messaging to ensure that we do not support any convoy on the 417 and access to Ottawa will not be allowed. We also have observation on the site on white Lake Rd Arnprior and no activity on very small number of vehicles on site. We have aviation resources engaged and will be flying all encampment sites past and present to gather real time information on numbers at 1100 hrs.

We have a traffic plan to deal with any convoy attempting to enter Ottawa which includes a reactionary plan to deal with any stoppages on the highway or attempts to enter the city. We have resources and plans in place for all reasonable foreseen potential protest activities and are communicating with our policing partners including intel in the NCRCC.

Regards,

Scott
